

PRODUCT DATA SHEET Product PGT IGR 30000/A

ProvisionGard™ Polymer/Adhesive Additive

INTRODUCTION

ProvisionGard PGT IGR 30000/A Liquid Polymer Additive is formulated with a patented insect growth inhibitor for insect control. It is used as an additive in existing food grade adhesive formulations. The resulting adhesive layer protects dry food products from stored-product insect infestation. It is recommended that this additive be thoroughly tested to confirm that it processes and performs as required.

Typical applications would include but are not limited to; cereals, pet food, animal feed, rice, bird seed, flour and bakery mixes packaged in film multilayer bags, standup pouches and film wrapping systems.

The ingredients in a dry film of PGT IGR 30000 meet the current requirements of the FDA for food contact applications when used in accordance with the requirements and limitations of 40 CFR 180.1033. ¹

EPA registered and approved (81390-2) & A-(81390-4).

PROCESSING INFORMATION

- Use as received. Consult ProvisionGard prior to use to validate application results.
- Recommended usage rate: Solvent addition rate of 1% to %solids portion only. Not the total weight of adhesive batch.

Solventless Usage rate: Add IGR30000/A to B(curative) side that equates to .5% of total batch mix.
- Purge after use and store for reuse if desired.
- Mixes readily with all adhesive types with no separation over time. Can be combined as the last component in pre-formulated adhesives.

TYPICAL PROPERTIES

Appearance and Odor.....	Clear liquid, fruity odor
Boiling Point	100 C at .05 mm Hg.
Vapor Pressure	3.15 mPA (25C)
Specific Gravity	.93 (H2O=1)
Bulk Density	0.9261 g/cm3 (20C)
Solubility	1.4 mg/l water: miscible with all common organic solvents
Flammability	Not Flammable
Flashpoint.....	187 C open cup
Viscosity	Similar to Olive Oil

ADDITIONAL INFORMATION

Consult the Material Safety Data Sheet for this product prior to using or handling

Non Hazardous and Non Toxic. Packaging can be disposed of normally.

¹ The responsibility for compliance with FDA regulation resides with the manufacturer of the final product.
